2. Mr. Muhammad Yahya

FUTURE PROSPECTS

Construction work is actively in process for setup of 275 MTPD capacity ASU plant for manufacturing of medical and industrial gases and import substitute Calcium Carbide manufacturing plant at Hattar Economic Zone. Due to extra-ordinary appreciation in US \$ and hike in local prices, cost of these projects have drastically increased. Alhamdulillah sanction letter for 22 MW electricity connection for these projects has received and work is actively in progress for setup of own grid station. Partial shipments of plant and machinery have already arrived and balance shipments are delayed due to prevailing foreign currency reserve conditions in the country. However, we are confident that despite all adverse factors these shipments will arrive during July 2023 and these projects will be on board by October 2023, Insha Allah.

To meet the ongoing increase in demand of liquid gases in the country, the Board of Directors of your Company has decided to defer/place on hold the export of one of its existing 110 TPD ASU plant of the Company installed at Phool Nagar, District Kasur, to GCC region.

To step forward the board of directors of your Company has decided to provide the services to Air Ghani LLC and will enter into Erection, Procurement and Commissioning (EPC) Agreement for setup of ASU Plant in Oman.

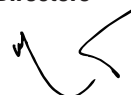

ACKNOWLEDGEMENTS

Indeed, all growth in the business of the Company was not possible without the Will and Blessings of ALMIGHTY ALLAH. The Board of Directors wishes to express gratitude to valued shareholders, banks/financial Institutions, customers and suppliers for their continuous support, cooperation and patronage. We also wish to place on record the dedication, hard work and diligence of all the executives, staff and workers of the Company.
