Future Outlook

1. **Finalising a long-term agreement with a leading steel mill in KPK for the supply of 100,000 cubic meters/month of Liquid Oxygen (LOX).**
2. **Planned to dismantle and reassemble an existing Air Separation Unit (ASU) located in Lahore, to Oman to support the growing sales demand across the Middle East and Oman markets.**
3. **Significant reduction in electricity consumption (20-25%) at the newly set up ASU plant in Hattar, ultimate reduction in manufacturing cost,, a major positive impact on bottom-line performance.**
4. **Reduction in taxation for a period of 10 years, another major positive impact on bottom-line performance.**
5. **Entering the LPG business through a wholly owned subsidiary. License from OGRA already obtained.**
